\$135,000.00

Official Form 106A/B

Schedule A/B: Property

12/15

In each category, separately list and describe items. List an asset only once. If an asset fits in more than one category, list the asset in the category where you think it fits best. Be as complete and accurate as possible. If two married people are filing together, both are equally responsible for supplying correct information. If more space is needed, attach a separate sheet to this form. On the top of any additional pages, write your name and case number (if known). Answer every question.

Part 1: Describe Each Residence, Building, Land, or Other Real Estate You Own or Have an Interest In

1. Do you own or hav	e any legal or equit	able interest in a	ny reside	ence, building, land, or similar property?		
☐ No. Go to Part 2.

Raymond Armstrong & Mary Smith

Raymond Armstrong & Mary Smith 1355 Mainsville Rd Shippensburg, PA 17257

File Number: 1355 Mainsville Rd

In accordance with your request, I have appraised the real property at:

1355 Mainsville Rd Shippensburg, Pa 17257

The purpose of this appraisal is to develop an opinion of the defined value of the subject property, as improved. The property rights appraised are the fee simple interest in the site and improvements.

In my opinion, the defined value of the property as of February 26, 2015

is:

\$150,000 One Hundred Fifty Thousand Dollars

The attached report contains the description, analysis and supportive data for the conclusions, final opinion of value, descriptive photographs, assignment conditions and appropriate certifications.

Vune C. Wishle

Pennsylvania State Certified Lic #RL139766

File No. 1355 Mainsville Rd

Scope of Work, Assumptions and Limiting Conditions

Scope of work is defined in the Uniform Standards of Professional Appraisal Practice as " the type and extent of research and analyses in an essignment." In short, scope of work is simply what the appraiser did and did not do during the course of the assignment. It includes, but is not limited to: the extent to which the property is identified and inspected, the type and extent of data researched, the type and extent of analyses applied

The scope of this appreisal and ensuing discussion in this report are specific to the needs of the client, other identified intended usars and to the intended use of the report. This report was prepared for the sole and exclusive use of the client and other identified intended uses and its use by any other parties is prohibited. The appraiser is not responsible for unauthorized use of the report.

The appraiser's certification appearing in this appraisal report is subject to the following conditions and to such other specific conditions as are set forth by the appraiser in the report. All extraordinary assumptions and hypothetical conditions are stated in the report and might have affected the

- The appraiser assumes no responsibility for matters of a legal nature affecting the property appraised or title thereto, nor does the appraiser render any opinion as to the title, which is
 assumed to be good and marketable. The property is appraised as though under responsible ownership.
- 2. Any sketch in this report may show approximate dimensions and is included only to assist the reader in visualizing the property. The appraiser has made no survey of the property.
- 3. The appraiser is not required to give testimony or appear in court because of having made the appraisal with reference to the property in question, unless arrangements have been previously made thereto.
- 4. Neither all, nor any part of the content of this report, copy or other media thereof (including conclusions as to the property value, the identity of the appraiser, professional designations, or the firm with which the appraiser is connected), shall be used for any purposes by anyone but the client and other intended users as identified in this report, nor shall it be conveyed by anyone to the public through advertising, public relations, news, sales, or other media, without the written consent of the appraiser.
- 5. The appraiser will not disclose the contents of this appraisal report unless required by applicable law or as specified in the Uniform Standards of Professional Appraisal Practice.
- Information, estimates, and opinions furnished to the appraiser, and contained in the report, were obtained from sources considered reliable and believed to be true and correct. However, no responsibility for accuracy of such items furnished to the appraiser is assumed by the appraiser.
- es that there are no hidden or unapparent conditions of the property, subsoil, or structures, which would render it more or less valuable. The appraiser assumes no responsibility for such conditions, or for engineering or testing, which might be required to discover such factors. This appraisal is not an environmental assessment of the property and should not be considered as such.
- 8. The appraiser specializes in the valuation of real property and is not a home inspector, building contractor, structural engineer, or similar expert, unless otherwise noted. The appraiser did not conduct the intensive type of field observations of the kind intended to seek and discover property defects. The viewing of the property and any improvements is for purposes of developing an opinion of the defined value of the property, given the intended use of this assignment. Statements regarding condition are based on surface observations only. The appraiser claims no special expertise regarding issues including, but not limited to: foundation settlement, basement moisture problems, wood destroying (or other) insects, pest infestation, radon gas, lead based paint, mold or environmental issues. Unless otherwise indicated, mechanical systems were not activated or tested.

This appraisal report should not be used to disclose the condition of the property as it relates to the presence/absence of defects. The client is invited and encouraged to employ qualified experts to inspect and address areas of concern. If negative conditions are discovered, the opinion of value may be affected.

Unless otherwise noted, the appreiser assumes the components that constitute the subject property improvement(s) are fundamentally sound and in

Any viewing of the property by the appraiser was limited to readily observable areas. Unless otherwise noted, attics and crawl space areas were not accessed. The appraiser did not move iture, floor coverings or other items that may restrict the viewing of the property.

- 9. Appraisals involving hypothetical conditions related to completion of new construction, repairs or alteration are based on the assumption that such completion, alteration or repairs will be competently performed.
- 10. Unless the intended use of this appraisal specifically includes issues of property insurance coverage, this appraisal should not be used for such purposes. Reproduction or Replacement cost figures used in the cost approach are for valuation purposes only, given the intended use of the assignment. The Definition of Value used in this assignment is unlikely to be consistent with the definition of Insurable Value for property insurance coverage/use.
- 11. The ACI General Purpose Appraisal Report (GPARTM) is not intended for use in transactions that require a Fannie Mae 1004/Freddie Mac 70 form, also known as the Uniform Residential Appraisal Report (URAR).

Additional Comments Related To Scope Of Work, Assumptions and Limiting Conditions

The Intended User of this appraisal report is the client. The Intended Use is to evaluate the property that is the subject of this appraisal for market value. No additional Intended Users are identified by the appraiser.

Kelley Blue Book® Trade-in Value - This is the amount you can expect to receive when you trade in your car to a dealer. This value is determined based on the style, condition, mileage and options indicated.

Tip:

It's crucial to know your car's true condition when you sell it, so that you can price it appropriately. Consider having

Schedule C: The Property You Claim as Exempt

1. Which set of exemptions are you claiming? Check one only, even if your spouse is filing with you.

4/16

Be as complete and accurate as possible. If two married people are filing together, both are equally responsible for supplying correct information. Using the property you listed on *Schedule A/B: Property* (Official Form 106A/B) as your source, list the property that you claim as exempt. If more space is needed, fill out and attach to this page as many copies of *Part 2: Additional Page* as necessary. On the top of any additional pages, write your name and case number (if known).

For each item of property you claim as exempt, you must specify the amount of the exemption you claim. One way of doing so is to state a specific dollar amount as exempt. Alternatively, you may claim the full fair market value of the property being exempted up to the amount of any applicable statutory limit. Some exemptions—such as those for health aids, rights to receive certain benefits, and tax-exempt retirement funds—may be unlimited in dollar amount. However, if you claim an exemption of 100% of fair market value under a law that limits the exemption to a particular dollar amount and the value of the property is determined to exceed that amount, your exemption would be limited to the applicable statutory amount.

Part 1: Identify the Property You Claim	as Exempt
---	-----------

	☐ You are claiming state and federal nonbank					
	■ You are claiming federal exemptions. 11 U	.S.C. § 522(b)(2)				
2.	For any property you list on Schedule A/B that you claim as exempt, fill in the information below.					
	Brief description of the property and line on Schedule A/B that lists this property	Current value of the portion you own	Amount of the exemption you claim		Specific laws that allow exemption	
		Copy the value from Schedule A/B	Che	eck only one box for each exemption.		
	Line from Schedule A/B 1.1			\$8,868.44	11 USC § 522(d)(1)	
	Line Holl Schedule A/L 1.1			100% of fair market value, up to any applicable statutory limit		
	2008 Chevrolet Silverado 3500 Mileage: 59,000	\$26,452.00		\$6,993.00	11 USC § 522(d)(5)	
	Line from Schedule A/B: 3.1			100% of fair market value, up to any applicable statutory limit		
	2008 Chevrolet Silverado 3500 Mileage: 59,000	\$26,452.00		\$3,775.00	11 USC § 522(d)(2)	
	Line from Schedule A/B 3.1			100% of fair market value, up to any applicable statutory limit		
	2008 Chevrolet Silverado 3500 Mileage: 59,000	\$26,452.00		\$1,000.55	11 USC § 522(d)(5)	
	Line from Schedule A/B: 3.1			100% of fair market value, up to any applicable statutory limit		
	2005 Chevrolet Monte Carlo Mileage: 9,000	\$4,857.00		\$4,857.00	11 USC § 522(d)(5)
